

Technology Management Programs

The technology industry will continue to grow, so will your career, when you enroll in a Joshua Career Institute (JCI) program. Whether you are changing careers or expanding your career opportunities to earn more, a certificate or a diploma in Cisco Network Associate (CNA), CompTIA specialist (CTS), Microsoft Office Specialist (MOS), and others, is closer than you think. You will be surrounded with experienced professionals who will work with you step-by-step to reach your goals. We place greater emphasis on hands-on training and on professional certification.

At JCI, our mission is to equip and give you the technical skills and knowledge they need to excel and become a sought after professional in the technology industry. Our drive is to guide you in achieving significant measure effectiveness and success by offering rigorous academic programs, dynamic interaction with mentors and faculty, and practical experiential curriculum. Students are expected to meet the admission requirements shown below before full acceptance into the JCI programs.

Technology Management Options

JCI Technology Management Program options include the following:

1. Cisco Design Professional
2. Cisco Network Associate

3. Cisco Network Professional
